

CAREER TALK 2015

As part of the school's holistic and ongoing Education and Career Guidance (ECG) programme, the CCE department had organised a Career Awareness Talk for the P5 students on the 30th June 2015.

We had invited a total of 5 speakers; a dental surgeon, policeman, wellness coach, chef and Singapore National Team manager to give a talk to the students.

The main objectives of the Talk are:-

- to inculcate in the students an appreciation for the values of all occupations
- how they can contribute to the well-functioning society.
- It was also to enhance student's self-confidence through discovering their interest, strength, skills and values.

Each speaker was allocated a ten-minute presentation followed by Question and Answer session.

The students had an enriching experience and enjoyed the talk tremendously.
